

REMARKS

The Office Action dated June 22, 2007 has been read and carefully considered and the present amendment submitted to provide a clarification of the drawings.

In that Office Action, claims 1-20 were allowed and applicant appreciates the allowance of the claims. An objection was, however, made to the drawings as failing to show clearly that the procedure light is recessed within the overhead housing.

Accordingly, a new Fig. 2 is submitted herewith as a Replacement Sheet and which has an added line and arrows A-A that illustrate those component that are recessed into the overhead housing. A sentence has also been added to the specification to explain the line and the arrows A-A.

It is, therefore, submitted that the present application is in allowable form and an allowance of the present application is respectfully solicited.

13 Margarita Court
Hilton Head Island, SC 29926

Respectfully submitted,

Roger M. Rathbun,
Regn. No. 24,964
Attorney for Applicants
